TO WHOM IT MAY CONCERN

The **Ukrainian Psychoanalytical Society (UPS)**, founded in 2011, is an association of Members and Candidates of the International Psychoanalytic Association, who have been trained or are still in training in our Institute.

The UPS was founded in order to realize common interests in the development and promotion of theory, practice and research in psychoanalysis according to Sigmund Freud.

Within its activities the UPS is aiming at the realization in Ukraine of the following objectives:

1. To develop, spread and promote the theory and practice of psychoanalysis in Ukraine.
2. To foster the education of UPS members according to the criteria of the IPA, as well as educating experts of allied disciplines.
3. To take care that psychoanalysts and candidates perform psychoanalysis with proper professional criteria.
4. To create conditions making it possible to establish in Ukraine an IPA Study Group, which may develop to the status of an IPA Component Society.

The PIEE recommends to IPA Societies any kind of collaboration with the UPS.

Paolo Fonda
PIEE Director
